play and shine differently depending on the light. On the pictures you can see
the earrings with different lightening and on different backgrounds.

You can make a use of healing abilities of silver, prehnite and star ruby.

Here are some infos regarding that:

Silver is an excellent metal for mental, emotional and physical releasing and cleansing.
It encourages balance and grounding. Like the moons energy, it has a gentle, cool, smoothing effect,
acting to benefit the physical body by reducing fever, inflammation and nervous system stress.

Star Ruby

Ruby lends style and vigour to life. It bestows passion as a driving force,
but still prevents any tendencies towards self destruction in its role as a life loving stone.
